Talbert Property Trails

Several committee members accompanied Chuck Talbert to do some trail clearing on 1.8 miles of trail on his property. The trails through the sugar woods were walked. The adjacent landowner to the Talbert property is being contacted for permission to complete segments of the trail. We are hoping to get Chucks' mower repaired in order to keep a clear trail through the hay field leading to the sugar woods. Some additional trail maintenance work will be needed but this will be minimal. VAST will be improving drainage in some areas of the trail. We will need trail markings and signage.

Trails Report and Implementation Program

The Committee worked with Clare to revise the Implementation Program, focusing on recommended partners, estimated cost, timing, and priority of each implementation action. Clare will get a revised draft to the committee by June 5 in preparation for the June 10 meeting. At the next meeting, the committee will review the entire report and discuss plans for a final public meeting.
