

**SELECT BOARD MEETING MINUTES  
TOWN GARAGE SPECIAL MEETING  
APRIL 20, 2021**

Select Board Mike Hogan, Fred Ducharme, Ian Ackerman met at the Town Garage Property at 5 pm. Also in attendance were Larry Gochey, Dave Pike, Jen Miner, Steve Cox, Chris Schmidt

- No public comment. Meeting began at 5:00pm
- The Board discussed the logging that was occurring in the connected property owned by Grace Cookson. There is a right of way that was in question. The Board walked off the measurements as mentioned in the warranty deed. It seems that the adjoining landowners can drive right through the gate to the property and in this case were hauling logs out onto the main road. After the logs are removed the Board should have the right of way clearly marked with flags and consider moving some of the gravel that is piled up for Town use. The Board might consider changing the right away in the future after consultation with the adjoining land owners.
- The Board also discussed getting a dumpster for trash that is generated on the property and also for trash the road crew picks up during their normal working hours. We will get some costs and have the whole Board make a decision. It was also made clear that any trash picked up by the road crew in the interim will be taken to the recycling center on Saturdays only.
- Walked the property and reviewed locations for security cameras for the outside of the main building.
- Looked at the fuel tank areas and discussed fixing the shed over the fuel pumps and maybe even closing it in. Also talked of having a separate fueling station for the fire department and ambulance at their location. Will discuss that with the Board and Fire/Ambulance folks.
- Finally, the location for the storage containers was discussed. Another will be purchased as already approved by the Board with them being used for storing equipment as to be not left out in the elements.
- The meeting adjourned at 5:50 p.m. Motion by Fred, second by Ian.

Respectfully submitted,

Mike Hogan, Chair
