

**Emergency Select Board Meeting
May 7, 2021 via zoom**

In attendance: Mike Hogan, Michelle Leclerc, Fred Ducharme, Ian Ackermann, Aldo Nunn, and Jason from Nortrax

Purpose: To discuss the repair needed on the Town grader

- The grader needs repair to the clutch pack and related transmission.
- The grader is 6 years old with 3500 hours of use.
- The technician from the John Deere Dealer Nortrax in Burlington recommended that we have the grader hauled to their dealership and be evaluated.
- Bellavance Trucking will haul it Monday 5/10 and let the town know the extent of the damage.
- It may cost in the area of \$40-50K for a transmission if that is the case.
- The town will either rent an excavator while ours is being repaired or see if we can barter with another town and use theirs.
- The Board gave the approval for the hauling of the grader and the repair.
- The grader is an essential asset of the town and we cannot be without one for all the roads we maintain.
- Meeting adjourned 12:30

Respectfully submitted

Michael Hogan, Chair
